

Grand

The Grand from Premiere HTS has been considered by many to be one of our most comfortable theater seats ever. Grand offers a sleek, club chair design with a lower profile and a simple "push-back" recline system that is perfect for dedicated theaters with limited space or for use in lifestyle entertainment rooms where repositioning the chairs after the movie is desired.

Innovation and style go hand-in-hand at Premiere Home Theatre Seating. Voted as "Product of the Year" by Electronic House in 2003, the **Grand** is the latest in a family of firsts. The **Grand** features a lower seat back, "club chair" look. This stealth-like design allows for a slightly smaller footprint, which saves space, making the chairs ideal for smaller home theater rooms. Audophiles who cherish full-frequency response from rear channel speakers will especially appreciate the low-back design. Offering over 100 top quality leather finishes and selected micro fibers for comfort and design.
