

The brother of our popular **Rialto**, is this most robust, full-bodied home recliner, **The Duke**. Being right at home in the same wide variety of rooms or venues. From *"Way Out West"* to the Rocky Mountains, to that librarian-like smoking jacket setting – The Duke combines our most striking chair design with our most plush seat and back to bring you a home recliner experience unlike any other you've ever experienced. It's difference is the, *"Picture Frame,"* upholstery back treatment.

The Duke

When only the finest will do, **The Duke's** exquisite design offers comfort and versatile style. As one of the original recliners introduced over 20 years ago, we are proud of its long history and success. With an exceptional palette of more than 200 leathers and select ultra suedes, there isn't a decor that these recliners will not match. The comfort and eye appeal of The Duke will last for years to come.
