

*LoneStar II is the perfect compliment to those country and western themed home theaters. Incorporating the flexibility of Premiere HTS' wall-hugger design with the comfort and styling esthetics of the luxurious Rialto in a sleeker package, The LoneStar II has become one of the top three selling Theater Incliners in the PremiereHTS family for more than 15 years. It's time to saddle up and take home a real classic...*

# Lonestar II

*LoneStar II combines the smaller sized frame of our club chair models with the superb fashion and comfort of our plushiest recliners. LoneStar II's smaller footprint and extreme wall-hugger design allows for placement just 4" from a back wall, making it the perfect design choice for installation into smaller home theaters and apartments.*
